Ortus

This is my password manager. It does not in any way store master passwords. Generated passwords are encrypted.

Done:

- Cross-platform application
- Users system
- Password managing
- All user data is stored encrypted

TODO:

- Web interface
- Automatic updates
- Cloud data storage
- Clean mode - not saving any data

Installation

1. Clone or download Ortus

2. Install [Python 3](). **!!! Select "add python to path" option when installing !!!**

3. Open terminal, navigate to Ortus directory (run cd "path_to_directory") and run

   pip install -r requirements.txt

4. Done!

Usage

Run scripts/OrtusApp.py
